Professional Summary

- Detail-oriented Quality Control Chemist with 2 years of experience in a pharmaceutical lab. Proficient in ICP-OES and AAS analysis, with a proven ability to ensure product compliance and maintain quality standards. Eager to contribute to a challenging lab environment.

Skills

- Handling Of ICP-OES & AAS
- Handling Of Microwave Digster
- Handling and Management Of Elemental Standards & AAS Lamps
- Troubleshooting of ICP-OES & AAS
- Perform Method Development, Validation
- Accurate Recording & Reporting

Experience

- Startech labs** 01/06/2023 - Present
Junior chemist

Work History

- Perform analysis using ICP-OES & AAS instruments to ensure accuracy and compliance.
- Oversee microbiology testing, including daily plate exposure, preparation of medias and maintaining of cultures, ensure lab operations are efficient and complaint
- Conduct calibration and maintenance of key laboratory instruments (Semi microbalance, Ph meter, ICP-OES, AAS, Microwave digster) to maintain optimal functionality and ensure data integrity.
- Regular Monitoring room temperature and relative humidity in accordance with GMP and ISO guidelines to ensure proper lab conditions.
- Excute Method Validation, development and transfer to ensure compliance with industry regulations.
- Work with elements standard and AAS lamps to maintain and accuracy in analytical testing.
- Contribute to quality control activities and ensure adherence to ISO/GMP regulations in all lab operations

Education

- Avanthi institute of pharmaceutical sciences** 2023
Bachelor of pharmacy

Achievement

- Contributed to successful USFDA, CDSCO, and NABL audits, specifically in ICP-OES, AAS sections, resulting in zero major observations related to analytical data and instrument compliance.
