Professional Summary

Results-driven pharmaceutical professional, holds a Bachelor's and Master's in Pharmacy from Arya College of Pharmacy affiliated to Osmania University. Leveraging extensive experience in sales, inventory management, and patient education, I've excelled as a Pharmacist at Medilife Pharmacy, Sangareddy. Now aspiring for a Quality Assurance role in pharmaceutical manufacturing, I bring a solid foundation and a proactive commitment to upskilling. Eager to contribute impactful solutions and drive excellence in a dynamic manufacturing environment.

Work Experience

Pharmacist

Medilife Pharmacy

 05/2023 – present  Sangareddy, Telangana, India

- Possess in-depth knowledge of all types of drugs available in the market, including their brands, formulations, generics, and actively monitored expiry dates, ensuring the highest standards of pharmaceutical care and safety.
- Implemented an advanced inventory control system, reducing excess stock by 15% and minimizing product wastage, resulting in improved cost-effectiveness.
- Drove a targeted sales strategy that contributed to a 20% increase in monthly sales, achieving revenue maximization and elevating the pharmacy's financial performance.
- Established a patient education program, providing clear explanations of prescriptions and health conditions, fostering enhanced patient understanding and satisfaction.

Pharmacist

Dua Hospital & Pharmacy

 12/2020 – 04/2023  Sangareddy, Telangana, India

- Applied comprehensive pharmaceutical knowledge to provide specialized support to healthcare professionals, ensuring accurate dispensing of medications and contributing to patient safety.
- Implemented rigorous medication management protocols, including dosage monitoring and drug interaction assessments, resulting in a significant reduction in medication-related errors.
- Played a pivotal role in emergency response situations, efficiently coordinating with healthcare teams to ensure timely availability and dispensing of critical medications during high-pressure scenarios, contributing to patient care and safety.
- Inventory Control and Management (including sales and ordering)
