PROFESSIONAL EXPERIENCE

Quality Control Chemist Science November 2020 – present
NEULAND LABORATORIES LIMITED UNIT-II Hyderabad, India
HYDERABAD

As a seasoned Quality Control Analyst, I specialize in ensuring the adherence to strict quality standards and regulatory requirements within manufacturing processes. My key responsibilities include conducting thorough analyses of Raw Material, In-Process, Finished, and Stability Samples using various analytical techniques, and meticulously preparing reports on Assay and Related substances by HPLC methods.

I am proficient in reviewing quality documents and reports to uphold Standard Operating Procedures (SOPs) rigorously. Additionally, I am adept at calibrating critical instruments like HPLC, UV, Melting Point apparatus, Karl Fischer Titrator, and Potentiometer to maintain accurate analytical results.

Routine analysis of Raw Materials, Finished Products, and Stability Products, alongside managing inventories of chemicals, reagents, and standards, are also part of my duties. I actively contribute to the preparation of buffer solutions as per SOPs, ensuring their availability for analytical procedures.

Collaborating closely with service departments, I provide comprehensive reports to executives or managers to support decision-making processes. Moreover, I play a proactive role in process optimization by developing and reviewing SOPs and Test Procedures, ensuring alignment with regulatory standards and driving continuous improvement. My tenure as a Quality Control Analyst reflects my unwavering commitment to precision, diligence, and operational excellence.
