## Essential Skills

---

<b>technical skills:</b>	Drug formulation and compounding, Analytical techniques (like titration, chromatography (TLC)), Pharmacovigilance, Microbiological techniques.
<b>Soft Skills:</b>	Problem-Solving, Creative Thinking, Time management, Communication & Presentation Skills.

## Experience

---

<b>Industrial Trainee</b> <i>LORDS Research Laboratory Pvt. Ltd.</i>	<b>May 2024 – Jun 2024</b> Aurangabad, India
---	---

I worked as an industrial trainee in a pharmaceutical laboratory where I learned about drug formulation, quality control, quality assurance and testing procedures. I gained practical experience in handling lab equipment, preparing chemical solutions, and following Good Laboratory Practices (GLP). The internship helped me understand real-world pharmaceutical research and improved my technical and observation skills.

## Projects

---

<b>FORMULATION AND EVALUATION OF HERBAL CHURNA FOR DIGESTION.</b>	<b>2024</b>
<ul style="list-style-type: none"><li>The formulated herbal churna for digestion was successfully prepared using selected natural ingredients. Evaluation parameters such as organoleptic properties, flow characteristics, and powder fineness confirmed its quality and stability. The churna showed promising potential as a safe, effective, and economical digestive aid..</li></ul>	

## Certificates

---

<b>Introduction to Pharmacovigilance</b>	<b>10 jun 2025</b>
<b>Attended the 73rd Indian Pharmaceutical Congress</b>	<b>Jul 2024</b>
<b>Career in Drug Regulatory Affair</b>	<b>16 Jun 2025</b>

## Leadership / Extracurricular

---

- As President of the Student Council, I led a team of student representatives and organized various academic, cultural, and social activities. I was responsible for planning events, managing student concerns, and coordinating with college staff and management. I developed leadership, communication, and teamwork skills while working to improve student life and campus engagement.
