CAREER OBJECTIVE :-

Highly motivated and detail-organic Chemistry graduate seeking a challenging position to apply theoretical knowledge and practical skills in a dynamic research environment. Proficient in various laboratory techniques, including synthesis, purification, and characterization. Possess strong analytical skills and a keen interest and exploring innovative solutions to complex chemical problems.

EDUCATION :-

Master of Science (MSc) in Organic Chemistry

Aditya PG college ,Kakinada

Adikavi Nannaya university

2022-2024

Bachelor of Science (BSc) in Chemistry

Akshara degree college ,jaggampeta

Adikavi Nannaya university

2019-2022

Board of Intermediate Education ,A.P

Sri surya junior college, jaggampeta

- Team collaboration and effective communication.

PROJECTS :-

"Harvesting Rainwater Energy: A Sustainable Approach to Generate Electricity" [1 week 2023]

To design and implement a rainwater harvesting system that integrates a micro-hydroelectric power generator to convert the kinetic energy of rainwater into electricity for powering small appliances or lights

Rainwater is an underutilized natural resource that can serve as an alternative energy source. By harnessing the potential and kinetic energy of flowing rainwater, it is possible to generate electricity using simple micro-hydropower turbines. This project combines rainwater harvesting and micro-hydropower generation to demonstrate a sustainable solution for energy generation

CERTIFICATES :-

- Secured a certification in Composition of food dye. -offered by 5th Sci – Land.
- Secured a certification in Diploma in Computer Applications -offered by MJPIE

INTERESTS :-

- Playing chess
- Making crafts
