## **PROFESSIONAL SUMMARY**

IPQA Executive with 5+ years of experience in Pharmaceutical API Manufacturing at Divis Laboratories Ltd. Strong knowledge of in-process quality assurance, GMP compliance, line clearance, batch documentation review, deviation handling, and process verification. Experienced in monitoring critical process parameters, ensuring adherence to SOPs, and supporting regulatory compliance in API manufacturing environments.

---

## **WORK EXPERIENCE**

### **Divis Laboratories Ltd – Vizag**

#### **Production / Plant Executive (API Manufacturing)**

July 2017 – September 2022

#### **IPQA-Related Responsibilities:**

- Performed line clearance before and after batch operations.
  - Verified raw material dispensing and stage-wise process activities as per BMR/BPR.
  - Reviewed batch manufacturing records (BMR) and batch packing records (BPR).
  - Ensured adherence to GMP, GLP, SOP, and regulatory guidelines.
  - Monitored critical process parameters (Temperature, Pressure, pH, Vacuum).
  - Performed in-process checks during charging, filtration, centrifugation, drying, and packing stages.
  - Coordinated with QC for in-process sampling and analysis.
  - Identified deviations, incidents, and supported CAPA implementation.
  - Verified cleaning status labels and equipment status boards.
  - Ensured proper documentation, logbook entries, and compliance records.
  - Participated in internal audits and regulatory inspections.
  - Ensured compliance with data integrity and documentation practices (ALCOA principles).
  - Monitored 5S and housekeeping standards in production area.
- 

## **TECHNICAL SKILLS**

### **Quality Assurance**

- In-Process Quality Assurance (IPQA)
- Line Clearance & Stage-wise Verification
- BMR / BPR Review
- SOP Compliance & Implementation
- Deviation Handling & CAPA
- Change Control Documentation
- Audit Support & Regulatory Compliance
- Data Integrity (ALCOA)

#### **GMP & Compliance**

- cGMP Guidelines
- GLP Compliance
- Documentation Control
- Equipment Status Verification
- Cleaning Verification
- EHS Compliance

#### **Production Knowledge (Supporting QA Role)**

- Reactor Operations
- Filtration & Centrifugation
- Drying Operations (VTD / Spin Flash Dryer)
- Distillation & Solvent Recovery

---

#### **EDUCATION**

B.Tech – Chemical Engineering (2016)

Acharya Nagarjuna University

---

#### **KEY STRENGTHS**

- Strong understanding of API manufacturing processes
- Good documentation and review skills
- Detail-oriented with strong observation ability
- Knowledge of GMP and regulatory requirements
- Ability to work in cross-functional teams
