Academic Project Work

Project 1: Formulation & Evaluation of Glimepiride Nano Particles

- Researched the role of Glimepiride Nano Particles in the field of nanotoxicology and their application in controlled drug delivery systems.
- Studied mechanisms of toxicity caused by nanoparticles and how Glimepiride Nano Particles can help in minimizing adverse effects.
- Analyzed biocompatibility and safety profiles of various Glimepiride Nano Particles composites.
- Explored the use of Glimepiride Nano Particles for targeted drug delivery, enhancing efficacy and reducing toxicity in biomedical applications.
- Reviewed current advancements and challenges in nanomedicine, focusing on regulatory and ethical safety standards.
- Compiled and presented a comprehensive project report using MS Word and visual data representations via Excel and PowerPoint.
